

Fundamentals of Implant Dentistry: Factors Behind Predictable Results

Presented by

Carl E. Misch, DDS, MDS, PhD (hc)

Friday, August 24, 2012 • 9:00am - 3:00pm

course description

The rapidly evolving field of dental implant therapy is more exciting than ever. Current trends have made implants both the standard of care and the preferred treatment of choice for many patients. Join world-renowned lecturer Dr. Carl Misch as he discusses biologic and biomechanical factors behind achieving predictable results with dental implant therapy.

learning objectives

- Rationale for dental implants
- Current concepts in grafting materials
- Esthetic considerations in the maxillary anterior
- Management of thin anterior edentulous ridges

Carl E. Misch, DDS, MDS, PhD (hc)

Dr. Carl E. Misch is a world-renowned clinician, lecturer and author in the field of dental implants. He graduated Magna Cum Laude in 1973 from the University of Detroit Dental School, then went on to receive his Prosthodontic Certificate, Implantology Certificate and Masters Degree in Dental Science from the University of Pittsburgh. His numerous faculty appointments include the University of Detroit Mercy, the University of Michigan School of Dentistry and the University of Alabama at Birmingham. Dr. Misch is currently a Clinical Professor and the past Director of Oral Implantology at Temple University in Philadelphia and served as the Director of the Oral Implantology Residency Program at the University of Pittsburgh School of Dental Medicine from 1989 to 1996. He has maintained a private practice for more than 30 years.

In 1984, Dr. Misch founded the Misch International Implant Institute™ (MIII), which now has locations in Michigan, Florida, California and Canada. Over the years, the MIII has been present in Brazil, Las Vegas, Florida, Italy, Japan, Korea, Monaco, Spain and the United Kingdom. As Director, Dr. Misch has trained more than 3,500 doctors in a hands-on, yearly forum of education in implant dentistry with programs offered in both surgical and prosthetic aspects of care.

Dr. Misch has more than ten patents related to implant dentistry and is co-inventor of the BioHorizons® Maestro™ Dental Implant System. He has written three editions of Contemporary Implant Dentistry (Elsevier), which has become one of the most popular books in dentistry and has been translated into Japanese, Spanish, Portuguese, Italian and Korean. His most recent text is Dental Implant Prosthetics (Elsevier). He has published over 250 articles and has repeatedly lectured in every state in the United States as well as in 47 countries throughout the world.
